

Twitter is a social networking site where users can post 'tweets' or short messages, photos and videos publicly. They can also share 'tweets' written by others to their followers. Twitter is popular with young people, as it allows them to interact with celebrities, stay up to date with news, trends and current social relevance.

What parents need to know about

# TWITTER TROLLS

A 'troll' is somebody who deliberately posts negative or offensive comments online in a bid to provoke an individual for a reaction.

Trolling, can include bullying, harassment, stalking, virtual mobbing and much more; it is very common on Twitter. The motive may be that the 'troll' wishes to promote an opinion or make people laugh, however, the pragmatics of what they post could be much more damaging, posting anything from racial, homophobic to sexist hate. Trolling can lead to devastating consequences for

## INAPPROPRIATE CONTENT

# **FAKE PROFILES**

Fake Twitter accounts are made to impersonate a person, celebrity or public figure. As the accounts are not endorsed by the person they are pretending to be, they can often be used to scam or take advantage of young people who think that they're the real deal.

# **FAKE NEWS**

The speed in which 'tweets' are shared on Twitter can be unbelievably fast, meaning that fake news can often be circulated across the platform very quickly. Fake news articles and posts can often be harmful and upsetting to young people and those associated with the fake news. In addition to this, it's very easy for people to quickly and unexpectedly retweet a tweet posted by your child, meaning there is no going back.

# **HIJACKED HASHTAGS**

One of the most commonly used aspects of Twitter is the hashtag (#) – these allow users to easily search for specific trends, topics or subjects. However, due to the astronomical number of Twitter users, many hashtags can have 'different' intentions. One person may use a seemingly innocent hashtag, and before you know it, hundreds of people could be using the same hashtag for something inappropriate or dangerous that your child shouldn't be exposed to. This is common with 'trending' tweets, as people know that their tweet will be seen by a greater number of people.

# MEMES NORMALISING RACISM, SEXISM AND HOMOPHOBIA

Twitter is a popular platform for sharing Internet memes, helping to make concepts or ideas go viral across the Internet. However, despite most meme's being innocent and harmless, some often include sexist, racist or homophobic messages. Although they are

# **EVERYONE HAS ACCESS**

groups. When a user signs up, tweets are public by default, meaning anyone can view and interact with posts instantly. Your child may change their mind about a tweet they have posted but even if they delete it, there's always a chance that someone can screenshot, retweet it or post it onto another platform.

# Top Tips for Parents

CHECK ACCOUNT SETTINGS

We strongly advise that you thoroughly check your child's privacy settings. To take away some of the fear of your child's tweets being shared by anyone, you can always make their account protected. This means that anyone who wants to view what yout child has posted, it requires approval from them. In addition to this, you can change the settings so that they cannot receive 'direct' messages from anyone on the platform and that their location is not shared.

# **MUTING ACCOUNTS**

The 'mute' feature allows your child to remove an account's tweets from their timeline without unfollowing or blocking them. This means your child will stop getting notifications about a particular conversation but can still view it in their timeline. This can be useful if they are friends with someone but don't really like what they share. The other user will not know that they have been banned.

TWITTER TROLLS & THE LAW

From 2016, the CPS were able to exercise new laws that could see those who create "derogatory hashtags" or post "humiliating" photoshopped images jailed. They also announced the launch of a hate crime consultation, issuing a series of public policy statements centred on combating crimes against disabled people, as well as racial, religious, homophobic and transphobic hate crime. It's important your child knows about building a positive online reputation, as well as showing respect for others online and offline.

# SENSITIVE CONTENT

# **MUTE HASHTAGS & PHRASES**

# TURN OFF VIDEO AUTOPLAY

# **CONVERSATION & MONITORING**

monitor what they're doing online, including what they use the platform for, who they are talking to, and if they are viewing/taking part in anything that they shouldn't be. Discuss the dangers of the online world, such as fake news and online bullying - why do people involve themselves in these activities and what your child can do to prevent them.

# TWITTER LISTS

Twitter lists allow your child to create other feeds besides the main timeline that only include certain accounts – this is a great way to segment followers based on common topics and interests.
